HEIRNET brings together colleagues from around the world interested in History Education and its civilising, cultural, educational, social, political and citizenship roles. CORFU is the perfect location for considering HEIRNET 2018’s focus and rationale on:

HISTORY EDUCATION AND MEETING THE CHALLENGES OF IMMIGRATION, REGIONALISM AND SECTARIANISM

Greece and neighbouring states are experiencing a resurgent Mediterranean, Middle Eastern and North African crisis that deep seated social, cultural, political, religious, sectarian, populist, and economic factors fuel. Daily the extent and depth of the crisis played out through the mass media reveal the full horrors of extremism, bigotry, internecine conflict, civil war and the destruction of civic society. Here History Education has a crucial role in educating for a better future through equipping teachers, pupils and students with the thinking tools to examine critically and constructively the wide-ranging problems all societies face.
